W0J+14559

Smart light bulb, LED source GLOB with the possibility of changes to the colour temperature of light (CCT), with the possibility of dimming (DIMM) and remote commissioning and control via app on your mobile device. It is an LED source, a light bulb with E-27 base and with a large sphere shape, which is ideal for open lamps and suspended lamps without a diffuser.. The unique and incomparable design of the decorative MODERNSHINE series, featuring black iridescence and a 'smoked glass' effect, creates an intimate ambiance and atmospheric lighting. It is even more energy-efficient thanks to the use of durable COG filaments, which consume very little electricity. Wide beam angle 270° ensures even illumination of the room.
